

# The Levels of Intuitive Abilities

## Prepared by Stacey Mayo

Please note that information ascertained at various levels often overlap in some way.

- 1) **Basic Level** – Listen to words and ascertain intuitive connections. This includes such things as making intuitive connections to words that describe your health symptoms.
- 2) **Advanced Level**– This is the level of intuitive information that is received from your Celestial Guides and Angels including Archangels. (The highest level of Archangel information is generally received at Level 5.)
- 3) **Allowing Level** – This is the level of intuitive information that is received from Ascended Masters. (The highest Ascended Master information is generally received at level 5)
- 4) **Divine Level** – This is the level of intuitive information that is received from Source/God. This is the level that Sentelligent Medical Intuitives are trained to operate from.
- 5) **Higher Purpose Level**– when you are attuned to God and your Higher Purpose you can access the information that is in your field that you were meant to do in this lifetime. It will be opened up to you in divine timing. At level 4, you can access the information presented to you from Source but will not likely get all that you came to do. At level 4 and below, others will garner the highest levels of your purpose in a divine manner.
- 6) **Global Level** – at this level you are able to receive high levels of Supreme information that is perceived to be needed in the world. You must be attuned at level 5 before going to this. These are our Global Spiritual Leaders such as Deepak Chopra and Marianne Williamson.

**In the Sentelligent Medical Intuitive Training Program starting in October you will be attuned divinely to access new and higher levels of intuitive information over the course of the 6 month program. This is a NEW bonus worth \$497.** (This is optional for those at Level 4 and above who may decline it if so desired).
